

/pub/**cbm**/demodisks/c128/

Here are disks supplied with the Commodore 128.

These software items were originally distributed with all new Commodore peripherals, and can be downloaded for own use if original disks are corrupt or missing. Copying and selling this software is forbidden by copyright law.

## Subdirectories

**cpm@**

3rd party versions of the CP/M system

**src@**

Source code for C128 CP/M system

## Files

**1571-128d-v13-314855-02.d64.gz (dir) 65980 2014-07-31**

C128d 1571 test/demo disk v1.3 p/n314855-02

**cpm.622-5002336.d81.gz (dir) 277061 2007-06-13**

CP/M 3.0 System Disk, serial number 622-5002336. The disk label says: "Serial No. 622-5002336", "Commodore 1581 (TM) 3.5" DISK DRIVE", and "CP/M Version 3.0". The suffix "5002336" has been printed with a dot matrix printer.

User areas 1, 2 and 3 contain some source code. The files CPM3.LIB, CXEQU.LIB, X6502.LIB and Z80.LIB exist in user areas 1 and 2. Others are identical, but in Z80.LIB, the JR, JRC, JRNC, JRZ, JRNZ and DJNZ relative jump offsets have been fixed in the copy stored in user area 2.

**cpm.system.622-3282252.d64.gz (dir) 76779 2007-06-13**

CP/M System Disk, serial number 622-3282252.  
Dated 28 May 1987.

**cpm.system.622-3297432.d64.gz (dir) 76777 2007-06-13**

CP/M System Disk, serial number 622-3297432.  
Dated 28 May 1987.

**cpm.system.622-580745.d64.gz (dir) 69220 2007-06-13**

CP/M System Disk, CP/M Plus Version 3.0, serial number 622-580745.  
Dated 1985.

**cpm.system.622-598666.d64.gz (dir) 69216 2007-06-13**

CP/M System Disk, CP/M Plus Version 3.0, serial number 622-598666.  
Only a few bytes in cpm+.sys differ from the 622-580745 image.

**cpm.system.6228129311.d64.gz (dir) 76236 2007-06-13**

- CP/M System Disk, CP/M Plus Version 3.0, Serial No. 6228129311.  
**cpm.system.6228151676.d64.gz** (*dir*) 76230 2007-06-13  
CP/M System Disk, CP/M Plus Version 3.0, Serial No. 6228151676.  
The only differences from 6228129311 are in the CPM+.SYS file,  
which probably stores three copies of the serial number. The  
back side of this disk was identical with cpm-utilities2.d64.gz.
- cpm.system.german-1986.d64.gz** (*dir*) 77073 2007-06-13  
CP/M system disk, with modifications by Commodore Frankfurt,  
dated 1 May 1986. Serial number unknown (disk marked 622-85).  
In the used disk area, only the cpm+.sys file differs from the  
6228129311 image.
- cpm.utilities.d64.gz** (*dir*) 80351 2007-06-13  
CP/M System User Utilities Disk, CP/M Plus Version 3.0. Dated 1985.
- cpm.utilities.german-1986.d64.gz** (*dir*) 81805 2007-06-13  
CP/M utilities disk, with modifications by Commodore Frankfurt,  
dated 1 May 1986. Serial number unknown (disk marked 622-85).  
Compared to cpm.utilities.d64.gz, there is one new file, setup.com.
- cpm.utilities2.d64.gz** (*dir*) 81785 2007-06-13  
Another version of the Commodore 128 CP/M System User Utilities Disk.  
The setup.com file is different from the one included on  
cpm.utilities.german-1986.d64.gz. Both are by Commodore Frankfurt,  
though.
- cpm.utilities3.d64.gz** (*dir*) 74920 2007-06-13  
Yet another version of the Commodore 128 CP/M System User Utilities Disk.  
This was on the back side of the new system disk (May 28, 1987).  
This disk contains exactly the same files as cpm.utilities.d64.gz, i.e.  
setup.com has been removed.
- devpak128-102787.zip** 204174 2018-05-18  
Devpak 128 on four disks (D64 images).
- diagnostics128.d64.gz** (*dir*) 64050 2007-06-13  
Commodore 128 Diagnostic Menu. Test programs for the C128, C128D and  
for the 1571 disk drive. Track 18 has been reconstructed.
- README.cpm.disks.txt** 5454 2007-06-13  
A more detailed comparison of the Commodore 128 CP/M disks. Composed  
by William Levak.
- README.cpm.files.txt** 1196 2007-06-13  
A rough comparison of the files contained on 5¼" Commodore 128 CP/M  
system disks. Composed by Marko Mäkelä.
